### Step 7 (optional, but recommended): Install Chrome Add-On

If you choose not to complete this step, then you will just need to go to the iGive website and search a store you want to shop at in order for them to provide you with a link to that store that identifies you as someone involved with iGive.

With that being said, we highly suggest installing the add-on (using Google Chrome). It will make it so that when you are shopping online, any stores that are partnered with iGive.com will automatically know that you want your purchases to incur a donation from the store (again, at no cost to you). Thus, you need to click the green “install now” button to complete the next step.

You will then be directed to a new screen in which you simply need to click the blue button saying “add to chrome.”
